

SANKALP JADHAV

Java Developer | Python Developer | Web Developer

Email: sankalpjadhav2409@gmail.com — Phone: +91 8010411324 — Location: Pune, Maharashtra, India

LinkedIn: linkedin.com/in/sankalpjadhav24 — GitHub: github.com/sankalpjadhav24

PROFESSIONAL SUMMARY

Detail-oriented B.E. Computer Engineering student demonstrating rigorous academic grounding in software engineering principles, Object-Oriented Analysis and Design, and server-side Java technologies. Demonstrated capability in building dynamic web prototypes, designing normalized database schemas, and participating in competitive technical hackathons. Committed to engineering robust, maintainable backend infrastructure.

TECHNICAL SKILLS

- **Primary Languages & Core:** Java (SE), Core Java (OOP, Collections, Exceptions), SQL, C++, Python
- **Web Backend & Database:** Java Servlets, JDBC, Apache Tomcat, MySQL, HTML5, CSS3, JavaScript
- **Active Framework Learning:** Spring Boot, Hibernate, React (Core Concepts & State Management)
- **Developer Tools & Environment:** Git, GitHub, Linux/Bash, VS Code, Eclipse, MySQL Workbench

EDUCATION

SAVITRIBAI PHULE PUNE UNIVERSITY (DPCOE)

Bachelor of Engineering (B.E.) in Computer Engineering

Pune, Maharashtra, India

Expected Aug 2027

- **CGPA:** 6.00 / 10.00 — **Focus:** Software Engineering, Web Systems, Data Structures

MAHARASHTRA STATE BOARD OF SECONDARY & HIGHER SECONDARY EDUCATION

Higher Secondary Certificate (HSC - 12th Grade)

Pune, India

Completed 2023

- **Percentage Score:** 62.17% — **Stream:** Science (Physics, Chemistry, Mathematics)

MAHARASHTRA STATE BOARD OF SECONDARY & HIGHER SECONDARY EDUCATION

Secondary School Certificate (SSC - 10th Grade)

Pune, India

Completed 2021

- **Percentage Score:** 86.80% — **Distinction Achievement**

SOFTWARE PROJECTS

Java Web & Database Systems Prototype | Java, Servlets, JDBC, Apache Tomcat, MySQL, HTML/CSS

[GitHub Link](#)

- Engineered dynamic client-server web application using Core Java Servlets following Model-View-Controller (MVC) architecture.
- Established secure database connectivity via JDBC drivers to execute parameterized SQL queries in MySQL database.
- Configured Apache Tomcat application server to handle concurrent HTTP requests, session tracking, and response rendering.

MindWar Arena — Modular Strategic Game Engine | Python, OOP, Minimax, Automated Testing

[GitHub Link](#)

- Designed modular board game platform in Python supporting 9 deterministic strategy games with custom heuristic evaluation.
- Implemented Minimax search algorithm with alpha-beta pruning to simulate intelligent opponent decision-making loops.
- Built automated unit test suite validating state transition integrity, turn enforcement, and edge-case game resolution.

FinXpert — Financial Analytical Platform | Python, Java, APIs, Data Pipelines, Git

[GitHub Link](#)

- Collaborated in a 3-member engineering team during FinEdge Hackathon to build a real-time financial analytical dashboard.
- Integrated market volatility index feeds and engineered failover data caching pipelines to maintain system resilience.

StockMarket AI — Deep Learning Trend Forecaster | Python, PyTorch, LSTM, Pandas, Tkinter

[GitHub Link](#)

- Developed time-series deep learning model in PyTorch employing LSTM layers for stock price movement analysis.
- Preprocessed historical financial datasets using MinMaxScaler, engineering technical indicators (SMA, RSI) for training.
- Integrated evolutionary algorithm for portfolio weight optimization and constructed interactive Tkinter GUI interface.

CORE SYSTEMS FOUNDATIONS

- **Core Computer Science:** Object-Oriented Analysis & Design (OOAD), Data Structures & Algorithms, Software Testing
- **Database & Web Architecture:** Relational Database Design, SQL Normalization, HTTP Request/Response Cycle, MVC Pattern
- **Operating Systems & Networks:** Linux Kernel Basics, Process Management, Memory Allocation, TCP/IP Protocol Stack

ACTIVITIES & LEADERSHIP

- **National Service Scheme (NSS):** Active student volunteer; organized rural development camps, community welfare initiatives, and social awareness drives across local districts.
- **College Cybersecurity Club:** Active student member; participated in technical workshops covering network security fundamentals, ethical hacking concepts, and OS hardening practices.
