

SANKALP JADHAV

Web Developer | Java Developer | Python Developer

Email: sankalpjadhav2409@gmail.com — Phone: +91 8010411324 — Location: Pune, Maharashtra, India

LinkedIn: linkedin.com/in/sankalpjadhav24 — GitHub: github.com/sankalpjadhav24

PROFESSIONAL SUMMARY

Versatile B.E. Computer Engineering student with comprehensive training in web engineering standards, database management, and interactive application design. Experienced in developing end-to-end web system prototypes from initial database schema creation to dynamic server rendering. Combines systematic engineering practices with continuous learning in modern web stacks.

TECHNICAL SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), DOM Manipulation, Responsive Design
- **Backend & Database:** Java Servlets, Core Java, JDBC, Apache Tomcat, MySQL, Relational Schemas
- **Active Framework Learning:** React (JSX, Hooks), Spring Boot (REST APIs), Hibernate (ORM)
- **Developer Tools:** Git, GitHub, VS Code, Eclipse, MySQL Workbench, Postman, Linux Terminal

EDUCATION

SAVITRIBAI PHULE PUNE UNIVERSITY (DPCOE)

Pune, Maharashtra, India

Bachelor of Engineering (B.E.) in Computer Engineering

Expected Aug 2027

- **CGPA:** 6.00 / 10.00 — **Focus:** Software Engineering, Web Systems, Data Structures

MAHARASHTRA STATE BOARD OF SECONDARY & HIGHER SECONDARY EDUCATION

Pune, India

Higher Secondary Certificate (HSC - 12th Grade)

Completed 2023

- **Percentage Score:** 62.17% — **Stream:** Science (Physics, Chemistry, Mathematics)

MAHARASHTRA STATE BOARD OF SECONDARY & HIGHER SECONDARY EDUCATION

Pune, India

Secondary School Certificate (SSC - 10th Grade)

Completed 2021

- **Percentage Score:** 86.80% — **Distinction Achievement**

SOFTWARE PROJECTS

Java Web & Database Systems Prototype | Java, Servlets, JDBC, Apache Tomcat, MySQL, HTML/CSS

[GitHub Link](#)

- Engineered dynamic client-server web application using Core Java Servlets following Model-View-Controller (MVC) architecture.
- Established secure database connectivity via JDBC drivers to execute parameterized SQL queries in MySQL database.
- Configured Apache Tomcat application server to handle concurrent HTTP requests, session tracking, and response rendering.

FinXpert — Financial Analytical Platform | Python, Java, APIs, Data Pipelines, Git

[GitHub Link](#)

- Collaborated in a 3-member engineering team during FinEdge Hackathon to build a real-time financial analytical dashboard.
- Integrated market volatility index feeds and engineered failover data caching pipelines to maintain system resilience.

MindWar Arena — Modular Strategic Game Engine | Python, OOP, Minimax, Automated Testing

[GitHub Link](#)

- Designed modular board game platform in Python supporting 9 deterministic strategy games with custom heuristic evaluation.
- Implemented Minimax search algorithm with alpha-beta pruning to simulate intelligent opponent decision-making loops.
- Built automated unit test suite validating state transition integrity, turn enforcement, and edge-case game resolution.

StockMarket AI — Deep Learning Trend Forecaster | Python, PyTorch, LSTM, Pandas, Tkinter

[GitHub Link](#)

- Developed time-series deep learning model in PyTorch employing LSTM layers for stock price movement analysis.
- Preprocessed historical financial datasets using MinMaxScaler, engineering technical indicators (SMA, RSI) for training.
- Integrated evolutionary algorithm for portfolio weight optimization and constructed interactive Tkinter GUI interface.

CORE SYSTEMS FOUNDATIONS

- **Core Computer Science:** Object-Oriented Analysis & Design (OOAD), Data Structures & Algorithms, Software Testing
- **Database & Web Architecture:** Relational Database Design, SQL Normalization, HTTP Request/Response Cycle, MVC Pattern
- **Operating Systems & Networks:** Linux Kernel Basics, Process Management, Memory Allocation, TCP/IP Protocol Stack

ACTIVITIES & LEADERSHIP

- **National Service Scheme (NSS):** Active student volunteer; organized rural development camps, community welfare initiatives, and social awareness drives across local districts.
- **College Cybersecurity Club:** Active student member; participated in technical workshops covering network security fundamentals, ethical hacking concepts, and OS hardening practices.
